PRISONER SUBS & SPONSORSHIP

We offer free subscriptions of Profane Existence magazine to those held hostage by the state. We feel this free subscription service is important because most prisoners are not in a position to afford such luxuries as information from the outside. Because Profane Existence has been recognized as a resource for prisoner's struggles, we are receiving ever-increasing amounts of subscription requests. Because of the dire financial situation of the Profane Existence Collective, it is now more important than ever that support for free subscriptions to prisoners continues. Even an extra dollar when you subscribe or renew your subscription would greatly help.

IMPORTANT INFORMATION FOR PRISONERS: If this is the first issue of PE that you have received because you wrote and requested a copy, you are not automatically added to our permanent subscription list. If you have received this as a sample copy, please write and request to be added to the list if you want to continue receiving this magazine. Please inform us as soon as possible about any transfers or release dates because the Man won't provide us with forwarding information. By keeping all of our information current we will be better able to get this magazine to as many people as possible!

THIS IS PROFANE EXISTENCE

Profane Existence is the networking and resource magazine of the Profane Existence Collective with the goal of building a stronger, more active anarcho-punk movement. As a collective, we are a small group of individuals that have joined together our ideas and abilities to work on numerous projects as part of a single entity, in an over-all struggle against tyranny and oppression. While this magazine is our main networking and resource tool, we have undertaken a variety of other projects to help further supplement and strengthen the anarcho-punk community and reach out to and support other groups with similar ideas. The projects include Profane Existence Records which aims to release the most cutting edge of anarcho-punk music; our own screen-printing workshop producing political and punk propaganda-wears; a publishing and printing branch for literature and information; and Profane Existence Distribution, to spread materials produced within our movement, through means outside the normal corporate channels. We are not a membership organization that you can join up, but part of a larger movement of DIY punk culture and anarchist resistance. Get involved, be aware, make your own actions, and take a stand against the oppression that keeps you down. Most importantly, keep your sense of humor, because without it, there's no hope for a better future.

PROFANE EXISTENCE MAGAZINE

PROFANE EXISTENCE #26

Profane Existence Magazine was started in 1989 with the intent of rejoining the anger of punk rock music and the political movement that helped create it. Each (irregularly) published issue contains interviews of politically-orientated punk bands and other people involved in the punk, political or counter-cultural scene. Besides covering the music and culture of the anarcho-punk movement, we also dedicate a great deal of space to coverage of news and events not relevant to the movement and not covered in the mainstream press. While our hectic schedule prevents us from the monthly publishiong schedule we originally hoped for, we are currently publishing four times a year with a world-wide circulation at 10,000 copies.

Our current issue, number 26 released Sept. 16, continues with our tradition of coverage of the true DIY anarcho-punk movement containing interviews with DEFIANCE, FLEAS & LICE and ASSRASH as well as extensive coverage of the Chaos Days police riots in Hannover, Germany, extensive news and resistance sections, letters, columns and more. While we publish each issue in hopes of fostering world-wide resistance and networking of like-minded people, we also intend to be a source of entertainment and maybe a smile.
